</tbody>
</table>

Student Learning Outcomes:

Upon completion of the course, the student will be able to:

1. Describe the origins, perspectives, and methods of sociology as a social science.
2. Describe the framework of culture, stratification, and sociological insights into social change.
3. List the basic institutions of society and explain the reasons for the existence and continuation of these.
4. Identify Sociology in the narrow applications of socialization, interaction, and group relations.
5. Explain how and why health is a social issue and not just a matter of biology.
